

STEPHANIE LINEY

SUMMARY

I am a second-year Media and Communications student with a passion for Creative Writing, Journalism and Politics. I have a keen interest in pursuing a career in journalism and I am looking forward to seeing where it can take me.

EXPERIENCE

Nursery Teacher Assistant | Webber Independent School | June 16 -17, 2016

During my time volunteering at a local nursery, I assisted teaching in English, Languages and Mathematics as well as helping with many administrative tasks. This improved my adaptability in working tasks and ability to work under pressure.

Freemans Event Partners | Formula 1 British Grand Prix | July 5-8, 2018

In this role, I had to work in a team distributing maps to visitors to the event and communicate with people asking for help or guidance. This improved my communication skills and ability to think strategically and logically.
